PROFILE SUMMARY

Full-Stack developer with over 3.5 years of experience in delivering Robust and Scalable Web Applications. Expertise encompasses Java, Spring Boot, Microservices, and React with specialization in back-end development. Have a proven record in managing the Software Development Life Cycle (SDLC), optimizing systems for high performance, and achieving substantial cost reductions.

EXPERIENCE

Systems Engineer

Tata Consultancy Services (TCS)

08/2022 - Present Lucknow, Uttar Pradesh, 226010

A leading global IT services, consulting and business solutions organization

- Designed, developed, migrated, deployed, and maintained Java-based backend and full-stack applications.
- Optimized databases and supported production systems in an Agile environment.
- Built Spring Boot microservices handling 5,000+ RPM with 99.9% uptime.
- Migrated ANT-based legacy project into a modern Spring Boot architecture Maven project.
- Resolved 150+ critical production issues, achieving a ~60% reduction in recurring defects and improving overall system stability.
- Architected processing pipelines handling 2.8M+ audio segments per cycle using threads and FFMPEG software.
- Improved processing quality by 80–85% and reduced operational costs by 30–35%.
- Engineered real-time synchronization to ensure child tables remain aligned with the parent schema, preserving data consistency and referential integrity.

EDUCATION

Bachelor of Technology (B.Tech)

Shri Ramswaroop Memorial College of Engineering & Management

08/2018 - 05/2022 Lucknow, Uttar Pradesh, 226028

KEY ACHIEVEMENTS

- **Multiple TCS Excellence Awards**
- **TCS Commitment Awards**
- **On-The-Spot Awards**
- **Elevate Wings Award**
- **Xcelerate Warrior Certificate**

SKILLS

Java, Spring Boot, Microservices, Spring Data JPA, Hibernate, JDBC, MYSQL, JWT, KeyCloak, OAuth2.0, OpenID Connect, Kafka, AWS, Maven, Docker, Jenkins, Git, GitHub, SVN, System Design, JUnit, Mockito, React.js

PROJECTS

Social Hub

11/2025 - Present

socialhubb.fun

Full-Stack Social Media Platform

- Designed and built a production-grade full-stack application supporting posts, likes, comments, and connections.Developed a secure back-end using Java, Spring Boot with JWT-based Authentication and Keycloak server.
- Integrated Keycloak Server for centralized identity and session management.
- Built scalable REST APIs and a React frontend, deployed on AWS.
